REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The invention as claimed, Claims 10 and 22 specially include a limitation based on adding a Sender-chain field to an electronic mail message header section when forwarding the chain forwarded electronic mail message to another recipient, said Sender-chain field being associated with a list of chain sender addresses found during searching the body section and being associated with address of the most recent sender's address. While method and system for managing sender address information in an electronic messaging system is firmly document by prior art, adding a Sender-chain field to an electronic mail message header section when forwarding the chain forwarded electronic mail message to another recipient, said Sender-chain field being associated with a list of chain sender addresses found during searching the body section and being associated with address of the most recent sender's address is novel and the invention is patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided
